The Insurfection at Hasper's Ferry. Later accounts from Barper's Ferry fully confirm those received by relegraph Monday night.

The insurrection commenced Monday morning, and is said to have originated in some contractors going off and leaving their employers unpaid, who determined to indemnify themselves by solzing on the Government fonds. They are said to number from 200 to 500 willies and blacks,

They first seized on the Government Armory and took possession of the arms and ammunition therein contained, after which they made prisone so the principal citizens, some half dozen of whom were killed.

All the railroad trains possing through the place were stopped, and a negreeous ployed on one of them was shot and mortally wounded; the d-pot watchman was shot and killed.

The military of Washington and Baltimore and Washington had been called out. and had started by railroad for the seeve of the insurrection, taking along with them two 12 pound howstzers.
